As we continue in this Easter season, the resurrection stories help us to witness the Spiritual Works of Mercy in action. In his final days on earth, Jesus' appearances to his Apostles and disciples provided teaching moments in which he instructed the ignorant. In the encounter with St. Thomas, he counseled the doubtful Apostle from unbelief to belief. The three-fold exchange between Jesus and St. Peter in which Jesus asked St. Peter if he loved Him demonstrated how Jesus forgave offenses willingly. These examples show us that the Spiritual Works of Mercy are daily calls to live the Gospel messages. They can be found in our families, our places of work, and in our school community.

From the Health Suite

Update Health Records: If your child has visited the pediatrician for a well check this year and/or received new immunizations, please remember to send in a copy of that record to our school nurse. A copy of the standard health inventory form can be found on our school's website under the admissions sections <https://mostblessedsacramentschool.com/app/uploads/2018/09/occ1215-healthinventory.pdf>

Family Life Education: In the last two weeks, our 5th, 6th, and 7th grade students have been taught the family life and human reproductive system portion of our religious education curriculum. We would like to extend a thank you to Mrs. Kaouris, a professional health educator and proud parent of an MBS student, for teaching our students this important program.

Covid Tests Available: With an increase in covid and other illnesses in our local community, we want to remind you that the health department has provided us with rapid home covid test kits to be distributed free of charge. It is advised that you keep your child home when they are sick and test them to be sure it's not covid before sending them back to school and/or visiting those who are considered vulnerable or immune compromised. MBS accepts the results of home covid testing for return to school as long as your child is feeling better. Simply, send email to our school nurse, mlewis@mbscs.org to share test results. With the overlap in symptoms between the various illnesses going around, it's best to consult with your child's healthcare provider before returning to school. Info on home tests visit <https://www.cdc.gov/coronavirus/2019-ncov/testing/self-testing.html>

Counselor Corner:

Parents, I am continuing my visits with each class to discuss a very important topic. The diocese asks that I follow lessons from the program, "For the Sake of God's Children: Keeping Our Promises." Throughout the year I focus on topics such as bullying, appropriate boundaries, trusted adults, friendships, and life as a gift from God. This May I will focus on good-touch/bad-touch, secrets and again stress using our trusted adults. I always teach this topic age appropriately using books and resources that the children will understand. Parents, as always, please know you can contact me with any questions or concerns at tgabbard@mbscs.org

Love and prayers,
Theresa Gabbard
